

## ERRATA (訂 正)

地質調査所月報第 37 巻第 7 号掲載の下記の論文中, 次のとおり訂正致します.

ISHIHARA, S. and MIZUNO, A. : Age of granitic cobbles from the Koshiki Knoll, sea-off southwestern Kyushu, Japan.

- (1) Insert in p. 392

Table 1 K-Ar age determination on the tonalite dredged from the Koshiki Knoll.

Sample No.	Mineral	Isotopic Age (Ma)	<sup>40</sup> Ar rad (10 <sup>-5</sup> scc/g)	<sup>40</sup> Ar rad (%)	K (%)
GSK 70-232	Hornblende-biotite mixture of granodiorite	84.8±5.5	.770	75.3	2.14
			.676	77.7	2.16
			.732	41.3	

The constants for the age calculation are:  $\lambda_{\beta}=4.962 \times 10^{-10} \text{yr}^{-1}$ ,  $\lambda_{\epsilon}=0.581 \times 10^{-10} \text{yr}^{-1}$ ,  $K^{40}=1.167 \times 10^{-4}$  atom per atom of natural potassium.

- (2) 84.5 Ma and 84.4 Ma in page 392 and 393 respectively should be read as 84.8 Ma.  
 (3) p. 394 石原 三 → 石原舜三
