

CONTENTS

Introduction	<i>E. Inoue</i>	1
Outline of the research cruise	<i>E. Inoue</i>	3
I. Seismic reflection survey results	<i>Y. Okuda, K. Tamaki and M. Joshima</i>	10
II. Free air gravity anomalies in the area off southwestern Japan	<i>T. Ishihara and Y. Okuda</i>	17
III. Magnetic survey off southwest Japan.....	<i>M. Joshima</i>	19
IV. Sediments and rocks from the continental slopes and Nankai Trough off southwest Japan	<i>Y. Kinoshita, Y. Okuda, R. Grapes and E. Inoue</i>	22
V. Preliminary study on the sediment cores from the continental slope and deep-sea bottom off the outer zone of southwest Japan	<i>E. Inoue</i>	30
VI. Quaternary calcareous nannoplankton in deep sea piston cores off Kii Peninsula	<i>C. Tokoyoda and A. Mizuno</i>	54
VII. Paleomagnetism of a piston core from the Shikoku Basin	<i>M. Joshima</i>	63
VIII. Chemical composition of argillaceous sediments on the Pacific Margin of southwest Japan	<i>R. Sugisaki</i>	65
